CLUB RECOMMENDATION

LINK ENABLED

LINK-ENABLED: FROM THE BEST SLOPE COMPENSATED DISTANCES TO YOUR SLOPE

Bushnell Golf was the first to bring laser rangefinders to Golf. Our evolution continued with the introduction of “Slope” compensated distances for elevation change directly to your rangefinder, quickly becoming the most trusted “Slope” distances on Tour.

We have now partnered with Foresight Sports to offer LINK-Enabled technology, taking your stock club yardages provided by your launch monitor to give you personalized club recommendations right in your laser rangefinder's display.

*Launch Monitor sold separately. Compatible with Pro X3+LINK, Pro X3+ and Pro X3 rangefinder models via the use of the MyBag feature in the BushnellGolf.com app.

DEVELOP YOUR GAME WITH THE FREE BUSHNELL APP

The Bushnell App enhances a golfers experience on the course and manages the performance your game.

With detailed graphics including a hole fly over feature which is great when playing a new course or a hole layout which can't be fully viewed from the tee.

The App is FREE to download for all Bushnell Golf product owners and suitable for Apple and Android phone users.

- Play Golf: Access to over 38,000+ professionally mapped golf courses worldwide. Front, centre and back measurements to the green, custom points and 3D graphic layouts of each hole and fly overs on every hole.
- Scoring: Enter your score on the golf course while you are playing, and your score will register on the app, enabling easy tracking of total shots and putts.
- Performance: Track fairways and greens hit in regulation, putts taken for review after the round plus shot distance measurement.
- Seamless Updates: Wireless course updates on your compatible GPS devices through Bluetooth connection on your phone.
