MGI

E-BOOST

THE PUSH CART WITH A KICK

PRODUCT OVERVIEW

FIRST-OF-ITS-KIND PUSH CART

Introducing the **MGI E-BOOST**, a first-of-its-kind pushcart with a kick. A classic, lightweight pushcart that provides an extra boost at the press of a button through its hidden motor. For golfers who love a classic feel, but still want an effortless advantage.

Whether you're tackling steep hills, battling fatigue or pushing through a long round, the **E-BOOST** has your back. Enjoy effortless movement by seamlessly switching between Push and Boost mode to enhance your performance.

EASY COMPACT FOLD

EASY TRANSPORT & STORAGE

COMPACT FOLD DESIGN

The E-Boost's compact fold design makes pack-down simple, quick and convenient, helping golfers move from course to car with less effort. Its practical folding frame reduces storage space, while the quick-release rear wheels and compact folded profile make transport even easier between rounds.

PUSH

Enjoy the simplicity of a classic push cart by leaving the battery at home and walk the course in free-wheel mode.

HYBRID

Choose between pushing the cart manually or activating the Boost button when you need an extra kick.

BOOST

Use the boost button to activate the motor and give yourself a boost and provide some assistance when needed.
